

# RICHARD WARDLE

PROJECT MANAGER

## CAREER SUMMARY

I have over twenty five years of experience in designing electrical systems for commercial, educational and institutional facilities. My expertise covers all areas of electrical engineering including specification and procurement of major electrical equipment, design of power distribution systems to 15 kv. Areas of specific expertise include power distribution, lighting design, fire alarm, security systems, and cost estimating.

Working at BNA throughout the years has allowed me to meet and work with people that I will remember for the rest of my life. I've been able to work on a variety of projects and expand my understanding of how electrical systems interface with the different building types.

## AFFILIATIONS

UFOMA Conference

2011-2015

Presenting Speaker 2014, 2015

“

It is not happy people who are thankful, it is thankful people who are happy.
