

BNA SPOTLIGHT

DANIEL MORENO - INTERN

What are you currently learning at BNA?

Short circuit and arc flash studies in SKM Power Tools.

Favorite Food?

Burgers. Lucky 13 here in SLC has the best burgers I've ever had!

Favorite movie?

Pretty much any Arnold Schwarzenegger movie! Haha

What do you hope to learn more of at BNA?

I'm looking forward to participating in more projects, continue learning more about arc flash studies and contribute to my academic knowledge in mechanical/electrical engineering.

What are you studying in School?

I'm a Senior at the University of Utah studying Mechanical Engineering (Power Engineering emphasis) at the U of U. I also have a bachelor's degree in Information Systems.

Where did you grow up?

I'm originally from Sao Paulo, Brazil and lived there for most of my life. I moved to SLC 4 years ago to start my second bachelor's.

Best Vacation?

I spent the whole summer of 2017 in Italy. I traveled there with my family so I could apply for Italian citizenship. My heritage is 100% Italian (my great grandparents were Italian immigrants), and I was thrilled and honored to have it granted to me. It was a fantastic experience. Italy is a beautiful country, and they have the best food ever!

Tell us about your family

My brother is a Materials Science Engineer and works in Brazil for a defense contractor. My dad is retired and owned a small company specialized in building and refurbishing power transformers. I worked with him for quite some time, and this is one of the reasons why I decided to pursue a degree emphasis in power engineering.

What do you enjoy doing when you aren't working?

I enjoy listening to music, going to the gym, hiking and reading about philosophy and politics.

Proudest Accomplishment?

Being accepted for the ME program at the U of U and five other universities here in the U.S. Looking forward to my graduation next fall semester!

Favorite Band?

I'm a huge fan of heavy metal music, and my favorite band is Metallica. I've seen them live nine times already in 4 different countries, and the last time was here in SLC in November. I've been a fan since I was 15.
