

### HB84 COMPLIANCE SIMPLIFIED

Attention Clients and Architects: Elevate your project with BNA Consulting's unparalleled expertise in safety and security solutions tailored for the education sector. With a proven track record of excellence, we specialize in crafting customized strategies that prioritize the well-being of students, faculty, and staff. Our collaborative approach ensures seamless integration of cutting-edge technology and industry-leading practices, delivering comprehensive solutions that exceed expectations. Backed by our commitment to legislative compliance, including initiatives like H.B. 84 in Utah, we guarantee peace of mind while enhancing the learning environment. Partner with us to transform your vision into a safe and secure reality.

### WHAT IS HB84?

H.B. 84, also known as the School Safety Amendments, is a legislative act aimed at enhancing the safety and security standards in schools. The bill mandates stricter security measures and the implementation of advanced security systems to protect students and staff. Read more about H.B.84
